

TURNER DEMANDS AN INVESTIGATION

Alaskan Land Grants to Be Inquired Into.

BILL LAID BEFORE SENATE

Author of the Measure Charges That Privileges Have Been Granted to a Favored Few and Asks the War Department For Information.

WASHINGTON, March 21.—Soon after the senate convened Mr. Turner of Washington offered a resolution directing the secretary of war to inform the senate whether any concessions to excavate in the vicinity of Cape Nome, Alaska, or in other western waters, have been made to any individual or corporation or association by the secretary of war or any other war department official, if so, upon what authority, if any, such grant was made.

In response to an inquiry as to the information which had prompted the resolution, Mr. Turner said he had been informed by the governor of Alaska, who was now in the city, that the war department had granted exclusive rights to certain persons to mine the bed of the sea near Cape Nome. "If this is true," he said, "it is a shame, a reproach and a scandal."

The resolution was agreed to. Mr. Pettigrew offered and secured the passage of a resolution directing the secretary of war to inform the senate what were the qualifications of voters in the approaching elections in Cuba, who prescribed the questions, the purpose of the election and who would take charge of it.

Mr. Hale called up the measure making appropriations to supply additional urgent deficiencies. The committee amendment thereto was agreed to and the bill was passed without comment.

A bill to authorize the judges of the district courts of the United States to appoint stenographic reporters and determine the duties as to compensation of such reporters was passed. The bill provides for the appointment of 90 court reporters in the United States at a salary of \$2,000 each, extra pay being provided for extra manuscripts of court proceedings supplied.

PURCHASE OF LOUISIANA.

House Takes Steps Looking to Proper Celebration of the Occasion.

WASHINGTON, March 21.—When the house met Mr. Dabzell of Pennsylvania, from the committee on rules, presented a report from that committee for the appointment of a special committee to consider all proposed legislation relative to the celebration of the one hundredth anniversary of the purchase of the Louisiana territory at St. Louis in 1903. The speaker appointed the following committee: Messrs. Tawner, Minnesota; Steele, Indiana; Sherman, New York; Joy, Missouri; Corlies, Michigan; Burke, South Dakota; Republicans and Messrs. Williams, Mississippi; Bartlett, Georgia, and Ory of Virginia, Democrats.

The house then resumed the consideration of the Loud bill relating to second-class mail matter. Mr. Brownell of Ohio was the first speaker. He advocated the passage of the bill.

GOV. CANDLER ON TRUSTS.

He Believes They Are Injurious to the Country.

ATLANTA, March 21.—Governor Candler of Georgia, in his testimony before the industrial commission, stated that he believes trusts are injurious to the best interests of the country. Individual corporations are not dangerous in their individual capacity; it is when they pool their interests that they become harmful.

"They raise prices and build up colossal fortunes that are not good for the people. They build up the two extremes of society and destroy the great middle class that has been so largely responsible for the progress of this country."

True-Has Been Declared.

ATLANTIC CITY, March 21.—Andrew Carnegie, Henry Phipps, Henry Moreland, E. D. E. Lovejoy and Charles M. Schwab are here and they are constantly in one another's company. Mr. Phipps, Mr. Moreland and Mr. Lovejoy, since the Carnegie-Frick litigation, have been supposed to be on the side of Frick. It is reported that a truce has been established between Carnegie and Frick.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and is able to do her own work."

Free Vaccination.

On Tuesdays, Thursdays and Saturdays, from 12 m. to 3 p. m., persons will be vaccinated free of charge at the office of the State Board of Health of Florida, No. 9 West Intendencia street. Physicians of the city have kindly consented to perform the service at the hours named.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MEARKIE, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by Hynah Bros., 21 South Palafox street.

SIX LIVES SAVED BY A NEGRO.

He Makes a Daring Rescue From Burning Building.

NEW YORK, March 21.—Six lives were saved by the gallant work of a negro man during a fire at a flat in West One Hundred and Thirty-fourth street. The man's name is M. S. Anderson. He detected the fire while on his way to work. The flames had gained considerable headway, and in a window of the second floor stood a man named Nelson with his little children hovering about him, their escape having been cut off by the flames. With two other men, Anderson ran into the building next door and up to their floor. With his two companions holding his legs, Anderson swung head downward and, swinging his body backward and forward, managed to reach the children as they were held up to him by the father. All were taken out safely in this manner.

The firemen brought the other occupants of the building down the ladder.
